Thank you for sharing Andy. Ventura PD gave me a suggestion on how to handle these alerts. I'll work with Lt. Flaa next week to see if it is a viable solution to notifying patrol in a more timely manner when we get alerts.

Dan Cohen, Division Commander
Santa Maria Police Department

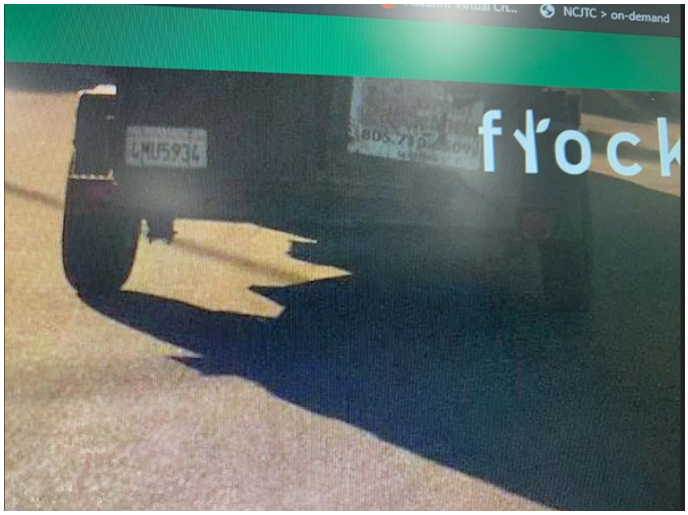
Subject: Flock LPR hotlist alerts - recap

Since November we have received 6 stolen vehicle alerts on the cameras at the apartment complex at 1321 N Bradley. We receive these hits via email and text(if selected). They will also alert on the webpage if it is kept open on our browser (it will make an audible alert).

Each alert has provided good photos of the vehicle. The below photo is from an alert this morning. I made a call for service but the car was not there when patrol checked the area.

The below pics were from an alert on 11/27. I also made a call for service for patrol to check, but vehicle was gone when they arrived.



So far, all of the images that the cameras collect have been very high quality and the vehicles are easily recognizable. I will continue to make calls for service when I get the alerts while I am at work.

Mathew Silver
